

KATANA PROPELLER

PROPS TO THE FISHERMEN

WHO DON'T KNOW WHEN TO QUIT.

MotorGuide®

SO YOU CAN FOCUS ON THE FISHING

MotorGuide's **new Katana 2-blade weedless propeller** has been engineered to perfectly balance power with efficiency. Designed with NASA design hydrofoil shape and industry leading Mercury Outboard Propeller technology to create the most powerful and efficient trolling motor propeller on the market. Katana offers more power and up to 30% more efficiency on your battery compared to previous props. Katana's weedless design sheds weeds with ease and excels in current, shallow and open water to enhance your motor's all-around performance in any application. Fits all 3.5" diameter motors.

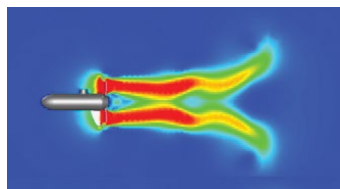

- Material: Engineered Polymer
- 10.25" Total Diameter
- 3.5" Inner Hub Diameter
- Propeller Kit Includes: Prop Pin, Nut and Washer
